CARD & BANKING ANALYTICS

Prepared for **Renee Castillo**
Director of Card Operations - Bear Down Bank

Replace 440 non-contactless cards now for $3,520. Let the other 1,253 renew on schedule.

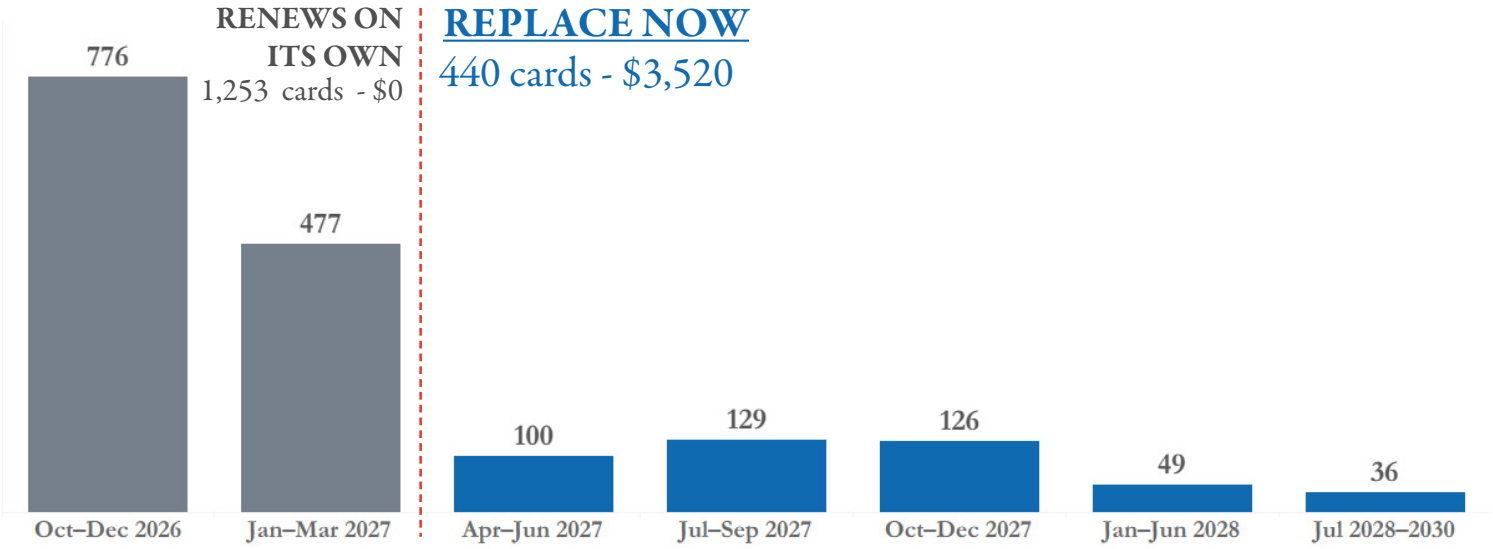

1,693 Bear Down cards still can't tap to pay. Three in four will be reissued as contactless at normal renewal by March 2027, so paying to replace them early is not financially responsible. The 440 left behind won't renew on their own until April 2027 or later, even some not until 2030.

440
cards in the early-replacement batch

$3,520
batch cost at $8 per card

$10,024
avoided by letting 1,253 cards renew on schedule

Non-contactless cards by when they expire

RECOMMENDED NEXT STEP

Approve one 440-card batch this quarter. Renewals convert the remaining 1,253 cards by March 2027 at no extra cost.

Counts are cards, not customers, so the 440 cards belongs to 389 customers, Bear Down Bank card extract as of September 30, 2026.
